Brian -

As you know we are preparing for the upcoming FDA panel. We are trying to find a female surgical OB/GYN to help answer questions and possibly present some of the facts. Would you be able to recommend anyone for us?

Regards

Brian

Brian  
Could you reach out to Brian Luscombe to come up with a suggestion?

Dr. Noblett is a mesh user in the anterior compartment, however, is not a proponent of mesh in the posterior compartment. Something that should be given consideration in considering a role for her.

Donna

Ethicon supports this individual. She has a good reputation.

We could live with this choice.

ginger-

We are still trying to contact Suzette Sutherland.

Subject: Female MD for presentation

Jeff,

Here is an additional name to consider from a presentation standpoint. I would recommend sharing it with the group to get other opinions:

• Dr. Karen Noblett - <http://www.obgyn.uci.edu/NoblettBio.html>

Thanks,

Adam
